CHARGED WITH INHUMAN NEGLECT
(Union Press Service)
Oakland, Cal., Sept. 16.—Refusal to call a physician for his six-year-old son, who, being burned from his waist to his head, was allowed to writh in agony for twenty-four hours without medical attention, was the charge upon which Thomas J. Toney was held to answer to the court today. If convicted the alleged inhuman father may be sent to prison for two years under the California law.

STOLE ASPARAGUS: LANDS IN ASYLUM

TRAGIC TALE REVEALED BY DEATH OF ITALIAN—TRIFLING AFFAIR DRIVES HIM INSANE

(Globe Cable Service)
Milan, Sept. 15.—Strange indeed are the cases which make up the fatal chain of circumstances in the story of Giuseppe Gagliati, who died recently of a severe disease in the lunatic asylum of Monelli. Probably the most penetrating psychologist would find it impossible, unless he were provided with the guiding thread, to establish causal nexus between an abnormal taste for asparagus and death in a padded cell; but it was undoubtedly Gagliati's penchant for the "scarlet vegetable" which at the first gave induced him to steal a few heads from a neighbor's plantation, and his anxiety to conceal this comparatively trifling misdemeanor caused him to endure untold suffering which eventually upset his mental equilibrium and drove him, from his home in his far-fetched brain.

The theft, which was the first act in this pathetic tragedy, was committed two years ago. Gagliati, an inhabitant of Monterotondo, was enjoying a stroll in the country, when he perceived a fine bed of asparagus belonging to one of his fellow citizens. His mouth began to water, and extracting a knife he set about collecting a few heads, on which he proposed making an enjoyable feast. Suddenly a gun was fired, and the dubious thief was struck in the right shoulder by a number of pellets from a sporting cartridge. With a cry of terror he took to his heels, but had barely gone half-a-dozen steps before another discharge took him full in the back and he stumbled to the ground. Struggling to his feet again he perceived the owner of the asparagus bed preparing to reload his gun. The wretched man made a supreme effort to escape and managed to reach the house of a friend whom he swore to secrecy. He was unwilling to denounce the person who had wounded him, as he did not wish his attempted robbery to become known. For the same reason he would not consult a doctor, who would have been obliged to make a report of the matter to his local authorities. So after his friend had done his best for him he accompanied Gagliati to his home and left him in the care of his wife.

Gagliati bore his sufferings in silence for four or five months. His condition grew worse and worse, and at last he would say nothing about the cause of his serious condition. His suffering and the separation from his family, added to the constant fear of his enemy, the proprietor of the asparagus, whom he supposed to be lying in wait ready to shoot at him again, finally turned his brain, and at last he was sent to a lunatic asylum, when his condition degenerated from melancholia into homicidal mania, until at last death put a merciful end to his sufferings.

This occurred last month. Until

LEAVE SUSPENDED IN BRITISH ARMY

UNEASY FEELING STILL PERVADES BRITISH MILITARY CIRCLES OVER MORGESCO SITUATION

(Canadian Associated Press)
London, Eng., Sept. 16.—It is reported at Portsmouth and other military centers that the war office has suspended all leave in the army, or is limiting it to three days. One statement says this applies only to the southern district. It is assumed that these measures are precautionary in view of the international outlook. Inquiry at the war office elicited the reply that there has been no general order issued. This obviously does not deny the orders issued in the south. Presumably nervousness in respect to Morocco prevailed in every department today. It was accentuated by more liquidation on the Berlin and Brussels bourses.

YUKON ELECTION OCT. 23.
(Western Associated Press)
Ottawa, Ont., Sept. 15.—The Yukon election will take place on October 23. It will likely result in an acclamation for F. T. Gordon.

A few days ago his widow jealously guarded the secret of her unfortunate husband. Then she went to the authorities and told them all the facts. The matter is now the subject of a judicial investigation.

ECCENTRICITIES OF GREAT COMPOSER

SAINT-SAENS, LION OF PARISIEN SOCIETY, BEWILDERS HIS FRIENDS

(Globe Cable Service)
Paris, Sept. 15.—The "Tribune de Paris" publishes the following tale about M. Saint-Saens, one of the great composers of the world, who is about to be brought out under his personal supervision at Genoa, in Italy. The celebrated master is above all things fond of the sun, and spends most of his time in the Canary Islands; but whenever he comes to Paris all the ladies in search of "dresses" for their evening parties vie with each other to secure his presence in their salons.

One of these lately succeeded in persuading him to accept an invitation to dinner, promising to send to fetch him also to deposit him at his door when he left, his only stipulation being that he should be allowed to make his own way to the table. The son of his hostess was delighted in such time, and found M. Saint-Saens in a velvet coat, waiting before his piano. He rose at once, however, and asked for ten minutes to dress, at the end of which he appeared, time for the white cravat. As he was shutting the door behind him he ejaculated:

"Goodnight!—the minute melody I have forgotten my toothbrush!" The youth could hardly believe his ears, but in his amazement saw his guest dive into his dressing-room and re-emerge with a toothbrush which he brushed away in his breast pocket. On arriving home he told his mother, who in some measure informed her friends, and everybody was in wonderment as to what the great composer was going to do with his toothbrush. The next day he was fixed on him throughout the dinner, watching him as he ate and drank an dried his finger nails. In the drawing room Saint-Saens talked with the ladies, and placed one piece that was asked of him, till ten o'clock struck, when he bade farewell politely to the company.

The journey home was without incident, and when they reached his home M. Saint-Saens simply offered to shake hands and say good-night. Curiosity was too strong though for the youth, who said:

"Excuse me, madame, but I should so much like to know why you so suddenly wanted to take your toothbrush with you."

"Oh! my young friend," replied Saint-Saens, "it is very simple. My clock is very stiff, and I always hurt my fingers in turning the key. So I have used the handle of my toothbrush in the ring of the key and turn it easily. Adieu!"

It was, in truth, the most natural thing in the world when it was explained, and again wishing his host good evening, the composer gravely dropped inside.

BLACK AND WHITE SEAMEN CLASH

CARDIFF IS SCENE OF SERIOUS RIOTS BY DISPLACED NEGRO SAILORS

(Globe Cable Service)
Cardiff, Wales, Sept. 16.—Serious riots again broke out here the other day among the seamen. The black and white seamen came to loggerheads, and the fighting became so general that the police had to clear the streets with baton charges. There are 500 black seamen at Cardiff, awaiting a chance to get a ship and many of them are in such an impatient state that they have been sleeping out. They complain of being boycotted by the agents of the ship-owners, and the police, knowing of the discontent, keep a close watch on the yards of the shipping offices.

A crowd of blacks wrecked the offices, and only the presence of inspector Davies and his men stopped what might have developed into a serious disturbance. An engineer, who made some disparaging remarks about "niggers," while standing on a Greek and German, was roughly handled.

Negres Get Out of Hand
About three o'clock in the afternoon the blacks, who had been awaiting outside the board of trade offices, again set out of hand. A Greek who had signed on was set upon by them, and it was only after considerable hustling that the police managed to get him away. He had been knocked over and kicked. Captain Tipper, who happened to be in the seamen's offices, called upon the angry blacks to keep order, but there was a shout from the men: "We have listened to you long enough." The black seamen then made a rush for the yards by the back way, and the police set in to the front door. After the blacks had made considerable noise in placing their demands before the officers they quickly came back to the street and resumed their places in the roadway.

Police Send Reinforcements
The police sent down a large reinforcement, and there was every element of a serious disturbance. Captain Tipper, who was in the Seamen's Union offices, went down into the street and tried to make peace, but in the rush of surging humanity he was thrown to the ground, and eventually had to be rescued by the police, who pulled him on his feet and guarded him back to the offices. The police, to the number of about ten, charged the crowds with their batons, and for some moments there was a scene of indescribable confusion, and the mob was chased to Broad street and down George street, several of them receiving nasty blows.

The blacks received reinforcements and returned to the vicinity of N.W. street, where another baton charge by the police took place, and the men were cleared. Fifteen negroes were conveyed to the Seamen's Hospital in a railway van.

COMMISSION HOLDS A LENGTHY SESSION

LARGE AMOUNT OF ROUTINE BUSINESS IS FINALLY DISPOSED OF AT REGULAR MEETING

An unusually lengthy session of the city commissioners was held yesterday. First the city has succeeded upon points property with the south line fence of the city park, a statement made this morning by Solicitor Abbott stating that his clients are short some two acres, valued at a compromise price of \$1,500 an acre. A confusion in surveys was declared to have caused this. The matter has been referred to the city engineer to investigate. The commissioners are not inclined to either purchase the two acres or make the city engineer to investigate. The position that the survey as it stands is correct. Heads of departments attending conventions in the future will be allowed a sum of expenses and will not be permitted to go ahead and bill the municipality for expenses upon their return. Some dissatisfaction has been expressed in this system. A motion was ordered this morning.

Improve Second Street.
The city engineering department is to do the improvement work near the granite of the Second Street hill and improve that slope, as the department is the lowest bidder for the work. Mr. Manders had in a tender this morning for \$3,500 and the figures of the city engineer were \$2,270.

Pound Limits.
Not all the residents of Westwood want the pound limits extended to their section of the city for a well-situated petition was before the commissioners this morning asking that such extension be not allowed. The petition was referred to the city council with power to act. The protest is provoked by a petition of other residents of Westwood to have the pound-by-law effective at Westwood on the ground that stock has become a menace to property.

Sub-divisions Approved.
Upon the favorable report of the city engineer sub-divisions were approved by the city commissioners as follows: lots 5 and 6, Westwood; sub-division of blocks 41 and 42, Northwood and re-sub-division of lots 9 and 10, block 33, Great East. The commissioners expressed disfavor in the re-sub-division of two lots into three lots. The board had a petition before it this morning asking that such be permitted and it was referred back to petition to set permission of adjoining property owners.

Should the city decide to permit the railway department to insure against damage suits arising from accidents, it will give all companies writing such insurance a chance for the business. The commissioners expect to advise for bids and accept the lowest tender of some responsible company.

Trees Are Valuable.
F. A. McLean values trees at \$20 each. He had a communication before the commissioners this morning stating

that city employees had entered upon and cut two trees from a lot belonging to him, and he considered that he had been damaged to the extent of 100. The secretary of the board is to ask Mr. McLean for more detailed information as to what city employees cut his trees.

Strathcona Paving.
The contract for paving work at Strathcona was awarded to the British Columbia Company at \$2.25 the foot. This work is in connection with street car extension.

With alacrity the commissioners passed to the council for approval a petition to pave the line north of Jasper Avenue from Myers Avenue to McDougall Avenue. A petition to build a sidewalk and a petition for sidewalk sidewalks on St. Andrew Avenue from Curry to Fourth Avenue was likewise approved. The matter was referred to the city council for authorization.

Poundmaster City Abiding.
That the poundmaster has not been paying the city taxes in disposing of stock impounded was the report of the chief of police. The chief recommended that the pound by-law be revised in some vital particulars and the police chief and city solicitor are to recommend changes desired.

PROBLEMS CHANGE IN PAST CENTURY

TOUR OF IRELAND ARRANGED, OBJECT OF WHICH IS TO STUDY CONDITIONS.

(Globe Cable Service.)
(By W. Hamilton Roberts.)

London, Sept. 16.—On November 30, 1887, Mr. Gladstone, as president of the Right Club, issued an important letter concerning the Home Rule propaganda which the club was then preparing. In this letter Mr. Gladstone said: "To inform the country as to the history and circumstances of Ireland is the most effective means of promoting the Home Rule policy; while the best means of frustrating that policy is to keep it in the dark. With these objects in view the club at that time sent many special speakers to liberal quarters, and a committee of the club—restricted in drawing up a narrative of the principal events governing the situation. This committee scrupulously confined itself to ascertained facts and carefully weighed all the evidence it placed before the public. Some important legal contributions concerning the relations between landlords and tenants and the workings of the Crimes Bill were published by the club at that time on the initiative of Mr. R. T. Field, Q.C., M.P., now Lord Chancellor, and with the help of Mr. H. B. Halliday, M.P., now Lord Halsbury.

Problems Have Changed.
After many years the club will now resume the work outlined by its former president. A committee has been formed to undertake a campaign. It is, however, found that the new generation of Liberals who have grown up during the strenuous times of the Boer war, Chinese labor, the edu-

cational controversy, and the Tariff Reform movement, have not made a full study of the Irish question which roused the enthusiasm of the previous generation. Furthermore, it cannot be denied that the conditions of Ireland have greatly changed, and it is said that much of the old religious bitterness is allayed.

To enable those who remember the old conditions to see the new, and those who have grown up to study the Irish question on the spot, the forthcoming tour to Ireland is organized. It is hardly necessary to say that the party will hold an inquiry as to the question of Home Rule, for on this question freedom of expression is very clearly and conscientiously every Irishman's election comes round. But the advantage of meeting all sorts and conditions of Irishmen, whether they be Protestants or Catholics, shrewd or naive, rich or poor, must be given to all who wish to lecture or speak on Home Rule during the coming year.

It has been arranged that the members will have an opportunity of meeting some of the chief officials of the Irish commission, the consociated district board, and the board of agriculture and technical instruction. Count Plunkett has invited the party to the National museum, which contains illustrations of Ireland's past history and her old civilization. Visits will be paid to Dublin castle and Trinity and Maynooth colleges. From Dublin the party will travel to Belfast. From Belfast the deputations will travel by special train to Galway, from which town the congested districts of the country will be visited and studied. It is intended to transfer some of the scenes of Irish life in these districts on to cinematograph films for use at future meetings in England.

From Galway the party will travel to Athlone and down the Shannon past the Clanciarie estate to Killaheen, and thence via Limerick to the congested districts of Kerry. The city of Cork will be visited, and the local press has already assured the visitors a hearty welcome. The route ends at Waterford, represented by Mr. John Redmond, and the return journey will be via Rosslare.

Among those who are intending to pay the visit are: Mr. Francis Acland, M.P.; Sir Geoffrey Harcourt, Bart., M.P.; Sir John Bann, I.C.C.; Mr. A. S. Carr, M.P.; H. W. Carr-Gorm, M.P.; R. C. Grawshaw-Williams, M.P.; Mr. Henry Greenwood, M.P.; Mr. Robert Lloyd, M.P.; Mr. Cecil Harcourt, M.P.; Mr. Herbert Hart, M.P.; Mr. Murray, M.P.; Mr. Harry Jones, M.P.; Mr. Lawrence Kay-Shuttleworth, M.P.; Mr. Max Murrat, Dr. Holland Hume, M.P.; Mr. W. W. Shaw, M.P.; Harold Spender, M.P.; Mr. H. de H. Walker, M.P.; Mr. Sir Thomas Whitaker, M.P.; Mr. P. W. Wilson, M.P.; Mr. Winfrey, M.P.; and Mr. H. W. Woodhouse, M.P.

New Educational Campaign.
It has been decided at Liberal headquarters to form a new organization for the purpose of carrying out an educational campaign in Great Britain on behalf of Home Rule. Mr. Winston Churchill has consented to become chairman of the executive committee, and Mr. Robert Harcourt will be the secretary. An active propaganda on

behalf of Home Rule will be undertaken this fall, and it is probable that a branch of the new Home Rule organization will be established in Scotland under the authority of Mr. Bullock, the Scotch Whip, in order to counteract the efforts of the anti-Home Rule campaign in Scottish constituencies.

Australia Overboarded.

Whatever be the truth about the advantages and disadvantages of Australia for the British emigrant, there is no denying that there are thousands of working people who have left this country only to find that the conditions of employment are much worse for them there than at home. Perhaps these failures if they may be so called were due to their own environment, but the probability seems rather to be that they were lured across the sea by the over-colored reports of emigration agents to find that Australia is no Edenland, and that whatever be its drawbacks, Great Britain is at least as comfortable a place for the working man as the great continent of the Antipodes. From time to time newspapers opened their columns to the correspondence of those who have practical experience of Australia.

Most of the opinions have been unfavorable, but both sides of the question have been laid bare. By the latest Australian mail a phenomenal batch of letters on the subject have come to the editors. They are presently deciding against the conditions of life, one is couched in terms of moderate commendation. The first letter comes from J. B. Dethlefs, Broken Hill, N.S.W. His chief complaint is that it is practically impossible to obtain steady work. There is a plenty of seasonal employment with good wages, but between jobs all the surplus is used up in traveling expenses and food. He continues: "People are talking about the scarcity of labor. In this town there are 100 men employed on the books of the Mines society, and yet the mine owners say they are short of men. All they want is to get a surplus of men to pick and choose from. They tempt men here by offering \$2.37 a day for laboring, but they do not say anything about the cost of living here. House rent is \$2.62; eggs 92 cents a dozen and water 18 cents per 100 gallons."

Another emigrant, J. R. Williams, is so tired of the conditions that he is coming home. Degradation and poverty are the keynote of his observations in Australia. Speaking of Sydney, he says: "During my stay in Sydney of two years I have seen more poverty than I saw in London in 30 years. Sydney is the most sinful city in the world. In no other city will one see so many young girls parading the streets at night as can be seen in Sydney and Melbourne. The one and only thought of the Australian is pleasure. High wages are no good when everything is so very expensive with the exception of meat. I have heard women say that they were better off with \$7.50 a week at home than they are now with \$15.00."

One of the best-known firms of West-end jewelers have just received a very large order from the King. The majority of articles to be put in hand are monogram scarf-pins, and are for distribution during the forthcoming royal tour in India.

PLEADS GUILTY TO CHARGES OF FRAUD

YOUNG WOMAN PLANS SMOOTH SCHEME TO SWINDLE AN AGED LANDOWNER

(Globe Cable Service.)
Vienna, Sept. 16.—Fraulein Helena Seitz, the daughter of an army officer, has pleaded guilty at Tachau, Bohemia, to a series of charges, including forgery with the object of swindling an aged landowner.

The prisoner, who is a good-looking woman of thirty-three, admitted that owing to financial embarrassments she began a systematic study of all the detective stories she could find in order to obtain ideas. Finally she thought of a plan by which she might defraud Dr. Hermann Janowsky, a wealthy neighbor, who was seriously ill and not likely to recover.

Again, she had recourse to books, and after studying her for several days, in order to become acquainted with local phraseology, she obtained Dr. Janowsky's signature, and had a stamp made from it by an engraver. She then wrote a letter to a solicitor in Prague, the Bohemian capital, forging Dr. Janowsky's name, and saying that as he was on the point of death he wished to make provision for his illegitimate daughter, Zdenka Seitz, to whom he wished to convey \$50,000 by immediate deed of gift. A power of attorney was enclosed.

A few days later Fraulein Seitz called on the solicitor and said that her name was Zdenka Seitz, and that she would like an early mortgage on account of the deed of gift. Values were sent to Dr. Janowsky's house, but as he was too ill to deal with business they were allowed to proceed with their work.

On the day when Fraulein Seitz was to receive her money, a slight alteration was found to be necessary in one of the deeds, and this required the signature of Dr. Janowsky. Dr. Janowsky's father that day and could follow the details, a circumstance that led to the arrest of Fraulein Seitz.

EDMONTON BRANCH, A. K. HENDERSON, MANAGER.

dozens of thousands of people, who claimed to prove their relationship to the millionaires. It was not easy to settle their claims. Scores of genealogical experts had to be set to work on every case. They could not find that 1,931 applicants had proved their claims. Mr. Auguste Dutilleul, probably never had the slightest idea in his lifetime that his relatives could be so numerous amounting to a whole regiment on a peace footing. The list, however, was accepted as definite, and the liquidation of the remainder of the fortune began. The first to put in a claim, of course, was the public treasury. It exacted such an enormous sum for death duties that the heirs protested and started a legal action against the treasury. They then began to sue one another to disprove each other's claims. It was a mad race and the result is that when the fees for the various lawsuits between the 1,501 heirs, and between them and the fiscal authorities, come to be counted up, they will probably exceed ten or twenty fold the fortune left by Mr. Auguste Dutilleul. As for the council of state, if they were to examine all the documents of the estate, it might have to leave aside all other business for a whole generation.

The dramatization of "His Fell in Love With His Wife," will be called "Partners," and the leading players of the company will be May Buckley and Frederick Burton.

The beautiful legend of "Sister Beatrice," dramatized by Matetelnie, is now to be turned into an opera, though the book will not be taken from the Matetelnie play.

THE NEW GARDENS ARE DRYING UP

GARDENERS HAVING LONG BATTLE
TO KEEP FLOWERS AND SHRUB-
BERY IN GREEN STATE

London, Sept. 16.—Summer at Kew Gardens has resolved itself into a long battle with the drought; already the roses in killed and clipped plants are heavy, and unless the enemy abates his attack, and that quickly, the year is likely to go down in the records as one of the most disastrous ever known. Very few of the visitors who throng the gardens daily have any idea of the prodigies of valour with the hose and watering pot, which the persistent gardeners have achieved throughout these long weeks of delectating sunshine. The deputy-curator spoke of all this today with the air of a man smiling through his tears.

"We have suffered badly," he said, "the men are watering all the time, but we cannot water everything. If it goes on much longer there will not be much left to water. The leaves are falling off the trees as if it were autumn; the grass is burned up. Go and see for yourself."

Was true. The grass, normally an emerald sward, is brown, and dry brown leaves skipped along its shiny surface, driven by the pleasant wind. The flower-beds very arid of discolours; there are blanks and failures everywhere. The Physic Garden is a disheartening spectacle, though interest in the flower-garden proper, the devastation is just as great. The plants have rusted to seed, and the beds have nothing like their proper brightness. In the glass-houses a day becomes an endless round of watering. "We water everything eight times a day," said a gardener in the palm-house. "By the time we are round it is time to begin again at the beginning. Ten and a half hour's work in a temperature of 80 degrees or 90 degrees, and a moist atmosphere takes the flesh off a man. I am pounds lighter than I was two months ago."

TO STOP JEWEL ROBBERIES.

New York, Sept. 16.—Representatives of eight jewelers' societies of the United States and Canada met in this city today to advise plans for the better protection of those engaged in selling jewelry and precious stones. The jewelers have been aroused to action by the unprecedented number of assaults and robberies reported by the trade during the past year. It is expected a large reward will be offered for the capture of the murderers of Adolph Stern, the clerk who was killed in the daylight raid on a Sixth avenue jewelry store some months ago.

Josina Henley, daughter of the late E. J. Henley, is to play a part in "The Deep Purple."

RUSSO-GERMAN PACT REFERS TO PERSIA

CONCERNS EXCLUSIVELY COMMERCIAL INTERESTS OF THE POWERS IN PERSIAN KINGDOM

(Globe Cable Service)
Berlin, Sept. 16.—The long-delayed conclusion of the Russo-German agreement, the outcome of the famous Potsdam interview between the Kaiser and the Czar, nine months ago, took place a few days since, when the treaty was signed in St. Petersburg by the German ambassador, Count von Pourtales, and M. Nevalov, the Russian Foreign Minister.

The text, as communicated to the press, through a semi-official agency, shows that the agreement bears exclusively upon the development of German and Russian commercial interests in Persia by means of Russian railway schemes, and contains no reference whatever to the understanding hinted at by Dr. von Bülow and Hollweg, the Imperial chancellor, in the Reichstag in December last, according to which each party agreed not to join any combination of powers directed against the other party. Even the preamble to the agreement contains no word as to the general political relations of the two powers concerned, and refers exclusively and particularly to Persia.

Disappointment in Germany.
This fact has caused a certain amount of disappointment in some circles in Germany, which apparently expected something more, and cherished the covert hope that the Russo-German agreement when it became an accomplished fact would strengthen Germany in her position towards Persia, and possibly exercise some influence upon the Moroccan negotiations.

During the last few weeks, prior to the signing of the agreement, however, Russia plainly indicated that her allegiance to the triple entente was in no way to be weakened, and now that the terms of the agreement have become definitely known, and show no ground for supposing that the general political situation has been affected, those Germans who expected something more are endeavouring to console themselves with the belief that a secret treaty with a far wider scope than the published agreement has been concluded with Russia. There are, however, absolutely no apparent grounds for such a belief.

ILLINOIS M. E. CONFERENCE.

(Union Press Service.)
Champaign, Ill., Sept. 16.—The annual session of the Central Illinois M. E. conference is here, today, with Bishop Moore of Cincinnati presiding. The conference appointments will be announced early next week, and usually a large number of ministerial changes is anticipated.

BLANCHE WINFORD'S sketch of herself. This portrait by the young woman witness in the sensational case trial is considered by French to be her masterpiece. She was so pleased with the pencil sketch that she painted it with brilliant colors. It is a good likeness of her as she is today, innocent looking and apparently happy and carefree, despite the fact that she is so prominently mixed up in the great tragedy.

WILL LET MEAT IN FREE

Duty Taken Off French Colonial Cattle to Relieve Farmer.

Paris, France, Sept. 16.—Food riots have become general in the north of France where the prolonged drought gives no promise of an improved condition of affairs. The price of meat, eggs and vegetables are rising steadily in order to relieve the situation, French colonial cattle are to be imported free of customs burden.

RICHARD OLNEY 70 YEARS OLD

(Union Press Service.)
Palmouth, Mass., Sept. 16.—The Hon. Richard Olney, who was attorney-general and later secretary of state under President Cleveland, today celebrated his seventieth birthday anniversary at his summer home here.

POSTMASTERS ASSEMBLE IN OMAHA, NEB.

Omaha, Neb., Sept. 16.—The National Association of the first-class assembled here today, with Postmaster General Hitchcock and Superintendent Thoma of the division of rural mails as the principal guests. The operation of the postal savings banks, the parcel problem and the improvement of the postal service in general will be topics of public interest that will be discussed before the convention after it settles down to business.

EMIGRATION ON JEWS IS DISCUSSED

ZIONIST LEADER CONTRIBUTES IMPORTANT ADDRESS TO THE DISCUSSION OF THE QUESTION

(Globe Cable Service)
Washington, D.C., Sept. 16.—One of the most interesting addresses given at the recent Zionist congress was that delivered by Dr. N. Katzenbach on the Jewish emigration question. The emigration of the Jews from Russia, said Dr. Katzenbach, exceeded the emigration of all the other peoples put together. For the Jews there was only one emigration question, and that was the question of emigration to Palestine. Jewish emigration from the Czar's dominions was not alone due to economic causes; the political situation was largely responsible for it. Unfortunately for Russia, the main bulk of these emigrants consisted of the intelligent and educated class.

Emigration Question Neglected.
Sufficient attention, said Dr. Katzenbach, was not paid to the Jewish emigration question by the Zionist movement. It was a matter of the utmost importance, as its effect was felt in every part of the wide world. The speaker concluded by moving the following resolution: "The tenth international Zionist Congress declares that the Jewish emigration question requires much more serious attention than has been hitherto paid to it, and that it is the bounden duty of every Zionist to interest himself in Jewish emigrants, particularly those emigrants whose objective is the Holy Land."

The resolution was carried unanimously by the congress.

Financial Aspect of Work.
The financial aspects of the work of Zionism claimed the attention of the delegates. Dr. M. J. Foderheimer read his report before the congress on the Jewish National Fund, the most popular financial institution of the movement. The main idea underlying this institution is that all Jews who still retained an affection for Judaism should contribute to the fund whenever they are able. The late Professor Schapiro, of Heidelberg, determined that this should be the fundamental basis of the fund, and he proposed at the first Zionist Congress, and which later was resolved upon at the fifty congress, to call for being very soon afterwards. Since that time the Jewish National Fund, the object of which is the purchase of land in Palestine for persecuted Jews, has risen enormously, and today it has a capital of over \$600,000.

The Building Trades Council of Los Angeles is conducting a free employment bureau.

NEW FRENCH LINER COMING.

Have, Sept. 16.—The new steamship, Rochambeau, of the French Transatlantic line, sailed from this port today on her maiden voyage to New York. The new steamship is more than 700 feet long and rivals the most modern of the transatlantic liners in luxurious appointments as well as in size.

WILL INSPECT MILITARY POSTS.

(Union Press Service.)
Washington, D.C., Sept. 16.—Secretary of War Simon and Gen. Leonard Wood, chief of staff of the army, are busily engaged clearing up the work of the war department preparatory to leaving Washington early next week for an extensive tour of inspection of the military posts and defenses in the south and southwest.

DISCUSES EMPLOYER'S LIABILITY.

(Union Press Service.)
Spring Lake, N.J., Sept. 16.—The three sessions of this, the second day of the annual conference of governors, were devoted to the discussion of employers' liability and workmen's compensation. The opening address this morning was delivered by Governor Eugene N. Ross, of Massachusetts.

MEXICAN VETERANS TO DISBAND.

(Union Press Service.)
Chicago, Ill., Sept. 16.—Two aged survivors of the Mexican war, Francis Benton and Thomas H. Wood, will disband the Western Association of Mexican War Veterans at its last camp fire and reunion in this city tomorrow. At the same meeting the Western Association of California Pioneers will be disbanded.

FARMER'S BANK MAN CAUGHT AT COAST

CLAUDE H. SMITH, SEC.-TREAS. OF PROVISIONAL DIRECTORS OF BANK, FOUND BY POLICE

(Western Associated Press)
Toronto, Ont., Sept. 16.—Claude H. Smith, former secretary-treasurer of the provisional directors of the Farmers bank, who was arrested yesterday in Vancouver, B.C., upon instructions from Toronto to the Vancouver police, is charged along with Dr. Beattie Nesbitt, W. J. Lindsay and the provisional directors, with conspiracy to obtain by false pretences the charter for the Farmers bank in 1908. Detective duBois will leave for Vancouver tonight to bring Smith back. The arrest of Smith leaves only two of those connected with the bank to be caught, Dr. Beattie Nesbitt and Dr. W. J. Lindsay. Inspector Duncan says that he is in communication with W. J. Lindsay, who wants to come and face trial, but he names certain conditions upon which he will come. Nothing is known of the whereabouts of Dr. Beattie Nesbitt.

PRESS PARTY IS IN THE CITY TODAY

DISTINGUISHED BRITISH NEWSPAPERMEN WILL BE IN EDMONTON OVER SUNDAY

Traveling in a special train procured from the Pullman company, eight members of the British Press association, now on tour through the Dominion of Canada, arrived in Edmonton last evening at 10 o'clock. They arrived in Edmonton about an hour later, spending the interval on the street railway, the tracks on the interurban line having been unfitted to withstand the effect of a few hours' rainfall.

This morning the members of the party were around at an early hour. The program devised by the department of agriculture, the Canadian club and the board of trade, has been ruled out of the question by the adverse weather conditions, but throughout the morning the British newspapermen have been touring the city, covering places of special interest, and they will spend the week and in Edmonton.

ment, training for the fact on Monday evening. Should they be cast on a rainy day, they will make a tour of the district on Monday morning.

The British journalists who are the guests of the city today are representatives of daily and weekly newspapers of the British Isles covering the visit of the royal family. They are the representatives of newspapers of all shades of political opinion, and of non-political journals, and the story of their tour through the Dominion of Canada will bring home to many millions of home-slaying old countrymen of all classes, something of the possibilities of the Dominion, and a realization of the true condition of western life.

London morning journalism is represented by Edgar Howson of the Daily Chronicle, who for the years has been a close study to the problem of unemployment and other social problems of the old land, writing and speaking on the subject. The field which Canada offers for British immigrants will be the subject of a special study by Mr. Rowan, while the water-power resources of the Dominion and the social conditions of the Dominion will be given special attention. Mr. Alexander is a member of the editorial staff of the Aberdeen Free Press, a selector who gave up the law to enter the field of newspaper work. The paper which he represents has made a special study of Canadian conditions. Robert Hugh Stanley Baird, J. P., father of numerous north of Ireland newspaper categories is another member of the party, while the Westminster Gazette is represented by its news editor, James P. Gaylor. Thomas Mole, manager of the Irish Post, Councillor C. W. Starnes, J. P., of the Sheffield Independent, and the Northern Echo, Wilfrid Butterfield of the London Financial News and Chas. Duncan Lewis of The Times, are other members of the party.

"There is no matter in which we shall be able to discuss the minds of our people in the old country," said Mr. Rowan in conversation with the Capital this morning. "The opinion has been widely held that in a country which is essentially a money-making country, the financial and social life must be largely lacking. In Western Canada we have found the reverse to be the case."

Dante, Prussia, Sept. 15.—Dante is a festival which has been held on the occasion of the German Crown Prince taking over command of the bodyguard of the Kaiser. The occasion was accompanied by brilliant military ceremonies which were witnessed by the Emperor and Empress. Their imperial majesties and the prince received an enthusiastic reception.

LANDING ROAD TO BE FINISHED IN FALL

GENERAL PASSENGER AGENT OF C. N. R. CONFERRING WITH THOSE IN CHARGE

M. H. McLeod, general manager of the Canadian Northern railway who is in Edmonton today conferring with those in charge of construction work on the new line running from here, stated to the Capital this morning that the railway to Athabasca Landing will be completed early in November and that a regular passenger service will be inaugurated between Edmonton and the Landing this winter. Freight for Athabasca Landing and

points further north will be handled by the railway as soon as the road is in running shape and the familiar stage route north from Edmonton three times weekly will be a thing of the past.

Speaking of progress on the C.N.R. lines under construction Mr. McLeod said that some steel will be laid this year on the Peace river branch, leaving the main line at Onaway. He expected that this line would be completed during the present season to the Pembina river, where there will be a delay of a couple of months while the bridge over the stream will be under construction. All the contractors on the main line would not complete their work this fall as they had been held back by unfavorable weather.

Mr. McLeod said that the right of way of the line, where it was surveyed in close proximity to the G.T.P. tracks and objected to by the latter company has not been settled finally. On one or two occasions during the summer injunctions were granted the G.T.P., preventing the C.N.R. contractors from building the grade of certain sections of the road that was too close to the tracks of the G.T.P. This has not retarded construction work seriously, however, as it has been possible in every case for the workers to move to another point on their contract and continue operations.

TRADES CONGRESS MEETS IN GUELPH

(Continued from page one)

per member on the entire membership as it was felt that the matter was in the interest of the workers of the whole Dominion.

Stormy Discussion
A stormy discussion took place over the report of the committee having taken in hand a number of resolutions bearing on the Laidlaw act. The committee recommended that the Congress demand the repeal of the act as being detrimental to the interests of the workers.

After a long discussion participated in by the selector and a number of delegates the recommendation of the committee was rejected by the close vote of 10 to 63. A resolution covering a number of desired amendments will be brought in later. The character of the debate may be judged by the fact that instead of adjourning for a lunch at 1, adjournment was not made until within a few minutes of 2 o'clock.

Officers Elected
The first business on resuming was the election of officers and as expected the western men carried the presidency. Waters of Victoria, president of the B. C. Federation of Labor, defeating President Glicking by 10 to 50. An even closer vote resulted in the ballot for vice president, Fred Bancroft of Toronto winning out over Vice President Franquet by the narrow margin of two votes, the figures standing 19 to 17. H. H. Bryce was re-elected secretary and treasurer by acclamation. The new executive are all advanced men politically and a considerable change in the policy of the Congress may be looked for.

After Alberta executive is: Symonds, Lethbridge, Vice President Hughes, Edmonton; Howell, Calgary, and McLeod, United Mine Workers. The retiring president was elected to the position of fraternal delegate to the American delegation of labor to the convention of next year's meeting place proved very amusing, the western delegates voting more eloquent than a congress of real estate agents in praise of their various cities. Clarke of

Edmonton who had a cordial invitation from the mayor of that progressive city to back up his claim, and Macraik of Saskatoon caused endless amusement by their inspired utterances. However both withdrew as it being pointed out that Guelph had been practically promised the convention last year, both however making a strong claim for 1913. After Clarke had unsuccessfully tried to secure the adjournment of the congress for ten minutes in order that a map might be procured to find out where Guelph was, the latter city was chosen for 1912.

At the evening session a resolution covering the proposals regarding the Laidlaw act was introduced and agreed to unanimously. The resolution stated that owing to the frequent delays in the constitutions of boards, enabling employers to bring in strike breakers and many recent failures of a fine part of the department of labor professing to administer the act. It would be in the interests of the workers that unless better administration was obtained and certain amendments made to have the act repealed.

The officers reports were adopted with the deletion of the clause respecting, it being feared that this proclamation coming at the present time would be construed as an endorsement of the Liberal policy.

MORE AFFIDAVITS RESPECTING THE BALLOT BOXES

(Continued from page one)

an earlier date, and Monday may finally be determined upon.

The affidavits taken by the workers in Ross Bros. tinshop are as follows:

Solemn Declaration
I, William H. Patterson, of the City of Edmonton, in the Province of Alberta, humbly do solemnly declare:

I have resided in the City of Edmonton for a number of years, and have for some time past been employed as a hushaboy by Ross Bros. Limited, in the City of Edmonton.

That on Friday, September 15, a sample ballot box was brought to the tinshop of said Ross Bros. Limited, with an order for thirty sample boxes to be made.

I and several others made the said sample boxes and saw the boxes being taken away and marked back of the said cover the hinges would be at once loosened from the cover.

Now about to be made and marked "Exhibit A" to this my declaration, is a ballot box similar in every respect to the said sample, and similar to said boxes made by us, except that in this case the wire of the front of the cover has been cut as in the sample, and the back of the said cover the hinges would be at once loosened from the cover.

To my opinion to make the boxes at all secure, the hinge should be fastened to the lid of the box, and not hung on a removable wire.

On the sample which was submitted there was a label in the following words: "Norris Bros., Limited."

8. That the thirty ballot boxes were supplied pursuant to the said order. The sample box was not returned with the others, and such sample box was called for three times before it was returned, and on the last occasion the person applying for the said sample demanded that he receive the same.

And I make this solemn declaration, conscientiously, believing it to be true, and knowing it to be of the same force and effect as if made under oath and by virtue of the Canada Evidence Act. (Signed) W. H. PATTERSON

Declared before me at the City of Edmonton, in the Province of Alberta, this 11th day of September, A. D. 1911.

(Signed) J. B. MCINTOSH, Justice of the Peace in and for the Province of Alberta.

The affidavit of William J. Edwards is to the same effect.

STIRRING LOCAL OPTION CAMPAIGN

(Continued from page one)

ment was returned to power, are entitled to sign the petitions, which will be subject to the most careful review before the plebiscite can be authorized by the license commissioner. The officers of the reform league, however, are confident that they have the requisite number of signatures, and a wide margin as well.

All Electors Can Vote.
On the actual plebiscite, all electors of the province will be entitled to vote.

Citizens who have been resident in Canada for a period of twelve months, and in Alberta for three months, will be entitled to vote, as at a parliamentary election.

Keen Contest Prominent.
The contest promises to be the most keenly fought of any that the people of the Western provinces have known.

The licensed victuallers of the province will dispute every inch of territory with the league. Quite recently at a meeting in Calgary, the sum of \$100,000 was guaranteed by the liquor men of the province to finance this one campaign.

As soon as the excitement of the general election has passed away, the moral reformers will open their campaign, which will probably be about six weeks in duration. Rev. Dr. Shown, general superintendent of the Methodist church in Canada, with headquarters in Winnipeg, and Rev. Dr. Moore of Toronto, general secretary for the temperance and moral reform work in the Methodist church, will tour the province, while Secretary Agrest, who is in charge of the work of the Edmonton branch of the league, is also expected to take a prominent part in the proceedings.

To a Capital reporter yesterday Secretary Agrest declared that "the most formidable foe" had been circulated throughout the country by the liquor men, as to the general effect of prohibition. "Untrue statements concerning the experience of prohibition towns in Ontario, had been widely circulated," he declared. "The country press has been subsidized, and false information disseminated by means of advertisements throughout the affected territory."

Licensed Victuallers Ready.
Secretary Tavolara, of the Licensed Victuallers association, had little to say when interviewed by a Capital reporter yesterday afternoon. "We shall have no announcement to make until it is known whether the moral reformers have a sufficient number of signatures to their petition," he said. "We are thoroughly prepared for any advertisement campaign that the liquor men make a practice of eliminating the hotels which are not properly run, and in consequence in an effort to still further raise the standard of the trade in Alberta. We will not accept the membership of any person who is known to be an habitual violator of the law. The executive is instructed to take action in all such cases and report them to the attorney-general. Any member who violates the liquor license act will be expelled from the association."

W. C. T. CONSTITUTION VIOLATED

It's Plain to Be Seen That Mutt Got Mixed Up in His Firecrackers

By "Bud" Fisher

CONSTITUTION IS BEING FLAGRANTLY VIOLATED

Moguls of Baseball in Western Canada Are Asleep—Tired Nature's Sweet Restorers Envelops the President—Who Will Waken him—Who Will Be President Next Year

A few remarks about the Western Canada league made at the present time are appropos. The league season closed on September 2. The constitution of the league calls for a meeting of the board ten days after the close of the season. It is now the sixteenth day of September or fourteen days after the season closed. No meeting of the board has been held.

Why was the meeting not held. Alas! No one can say except President Eckstrom and he won't. It looks very much as though things were going to be allowed to run on this year the same as they were last year. "Is there not one live eye?" asks the Calgary Herald, "in the league who will stir up this sleepy aggression and see that the laws of the league are carried out?"

"Do you remember last year?" The meeting mentioned above was never called. We are right when we say "never," for it is an entirely different meeting that was called together in January at Lethbridge. Last year the year's business was not settled until the next year (this year) had run almost to the opening of the league and we know what happened. The same old president had to be elected because there was no time to select another. The old president was over \$1,000 in

SEARCH WILL START FOR WRESTLER TO MEET GOTCH

COME SAY HACK WILL MEET THE BIG AMERICAN AGAIN IN LONDON.

(By W. M. Haughton)

Chicago, Sept. 16.—The wrestling excitement is over and the championship, like the America's cup, seems destined to remain in this country for many years.

Boundless the thoughts of that electric thousand dollar "sale" at the Comstock park on September 3, last, with much wide-awake and other promoters to secure the highways and by-ways of the world in the hope of securing up a worthy opponent for Frank Gotch. In all likelihood the startling news will be forthcoming after a while that Jimmie Haskins, with a 12-inch chest and arms and legs in proportion, has been located, somewhere in his native land or, possibly, his latest fight in Turkey is coming to this country to put the smiling scowls from Hamilton to rout. But what resident fan will all avail? The public

The YALE HOTEL CAFE IS NOW OPEN

MR. ROBERT McDONALD is now prepared to serve the citizens of Edmonton with the best obtainable food. Cooked by a first-class chef and on the European plan. Meals served a la carte, from 11 a.m. to 12 p.m.

PERAMBULATIONS

As soon as the elections are over we may expect all kinds of sport news but until then they are the only sporting events and they go on the sport page.

The innocent and trusting public especially those members of the same public who were innocent and trusting enough to risk their money on a certain recent race about that same oval was finished, but here is a delicate consolation from the flowing quill of Matt Watson. It is sent from his beautiful little catch nestling in the picturesque fringe of Euphuria, which is in Kansas. Since the good old smoke of battle, now the thousandth a rifle and a rubber balling ring.

The nutty stuff which Heinie sometimes expatiates over the numerous pages of the Albertaist which is published in Calgary, the same being a settlement somewhere near the irrigation ditch sounds like the warbling of a frog with feathers which has just emerged from a hole in the ground. Here is a sample of Nutty Heinie's stuff which was published originally in the Manitoba Gazette and see things: "If Niagara Falls were still Maryland, Quick Watson, the slug slug."

Heinie's remarks about shot brings to mind a variable that related in the Edmonton column of the Calgary Herald. In reproducing this we recognize that we are taking chances with our life but here it is: "The Lethbridge Collier may be good. So, and also to 'shoot man' in the approved manner, but it had been better if they had been able to 'shoot man' on Saturday."

Yes, that's true. But, Mr. Sporting Editor of the Herald, how did you come to find out that the Lethbridge Collier was so good? It was taken from your sport page to adorn a vile and useless editorial column.

by a long shot. We know there is no one who can hold a candle to Humboldt's Frank, and what's the use of coming excited. Well, fine, you see, is not boxing. When each man's cards have been shuffled a few times, the exact value and nature of each card specialized is established. There are no lucky numbers there are in misadventure is nothing to justify the occasional piling of a sturdy movie against a wretched champion. You can create a champion almost as surely as you can blind players, and this means that the element of chance are largely reduced.

Fearing that way about it, it looks as though Gotch's future operations will be for a while, if he insists upon keeping before the public, will consist mainly of exhibition work. He has arranged a series of exhibitions known as handicap matches—affairs in which he will endeavor to throw other men in his line so many times by the clock.

MORE TROUBLE.

London, Sept. 15.—A communication made public today by the National Free Press, London, explaining the counsel is not attacking generally the art of self defense, but only a specific point is taken as confirmation of the suggestion that the intervention against the Johnson-Weiss battle is purely due to opposition to a debt between a colored man and a white man, which may lead to racial bitterness. The counsel appeals to all ministers to start an anti-fight campaign in the churches Sunday and so are the enemies of the nation.

Piteters Dunbar and Delaney, of the Superior team, winners of the Minnesota-Wisconsin league pennant, both picked up on the way recently. In Ward Miller the Cubs have copped the star outfielder of the Eastern league.

TECUMSEHS WILL LEAVE TORONTO ON TUESDAY NEXT

FAMOUS LACROSSE TEAM START FOR COAST WHERE THEY WILL PLAY VANCOUVER.

Toronto, Ont., Sept. 16.—Arrangement were completed today for the Tecumsehs, champions of the N. E. L. U., to leave for the coast next Tuesday night to play for the Minto cup on Saturday, September 30th and October 6th. Premier Melville of British Columbia is trustee of the trophy at present, and another will be appointed shortly. The Tecumsehs will go right through to the coast on the C. P. R., and will have a week's rest before the first game. It has been known for some time that they will be their opponents. The Tecumsehs consider their chances of lifting the cup to be first class. They know the calibre of the players composing the Vancouver team, and they are sure that they could always beat them when they lived in the East, and they should be able to win from them on a Western field. The Indians are a wonderful "robo" team, but having lost a game away from home this season, and their friends hope they will maintain their record on the trip to the coast. The Tecumsehs will return home via Chicago, where they will play an exhibition game on the American League track grounds with the Windy Side champions. They will also play matches at Calgary, Regina and Winnipeg. If the necessary guarantee is forthcoming.

FIGHTING SUNDAY BALL

Nashville, Tenn., Sept. 15.—The fight of the A.M. Christian Union of Nashville for the dissolution of the Nashville base ball club as a result of this season's Sunday games is up again. Acting upon a petition signed by a number of citizens, Governor Houser has directed Attorney General Anderson of Davidson county to institute proceedings to have the charter of the club forfeited.

HE CHOKED AN WMP

Detroit, Mich., Sept. 14.—After being indefinitely suspended, First Sacker Kutina of the Syracuse South Michigan League club asked for his release and got it, and he will report to the St. Louis Browns at once. Kutina's crime was the choking of Empire O'Connor in Sunday's game. It is a question whether or not he will be allowed to play with the St. Louis while under suspension.

GOT TO HIT THE TIES

Charleston, S. C., Sept. 16.—Stranded in this city, with \$1,100 in salaries due them, is the fate of a dozen members of the Charleston South Atlantic League team. The league officials were appealed to for relief, but refused to pay the men what was due them, granting them releases from contracts. The Charleston club was put out of business and financially ruined when the league wrecked the base ball plant and took the minds of the public off base ball.

TO FIGHT FOR TIES.

(Union Press Service) London, Sept. 14.—Considerable interest is manifested in sporting circles in the fight at Liverpool tomorrow night, in which Digby Slinley is to defend his title of English Bantamweight champion against Ike Bradley. The two fighters will meet in a forty-round bout for a purse of \$2,500 and a side bet of \$1,000. Eugene Corri, the well known London sporting man, has been selected to referee the contest.

Jimmy Burke has his Indianapolis Indians out of the cellar and is boasting them to hold a place in the first division in the American association race. Having failed to put over a deal for the Boston Nationals, it is said that Ned Hanlon is now trying to purchase an American league franchise.

ANOTHER WHITE HOPE ABANDONS HOPE WHEN FLYNN WORKED THE FIZ

Carl Morris, the Oklahoman, Supulpa Giant and Other Things Suffered Horrible Walloping at Hands of Jim Flynn, the "Pueblo Fireman," and Other Things

Madison Square Garden, New York, Sept. 16.—Jim Flynn, the Pueblo hero, fought a winning battle of ten rounds with Carl Morris, at the Madison Square Garden tonight. At the end the Oklahoman man's face was battered to a pulp, while Flynn was unmarked save for a lump over the left eye. As a possible "White Hope" for championship class recognition, Morris proved a failure. He had nearly fifty pounds in weight and five inches in height over the Pueblo man, but failed to dazzle Flynn at any stage. Morris really had only one round, the third, and in all the other rounds he was the master of the ring work. All through the fight Morris kept using his great weight and strength to wear down Flynn, but the latter invariably had the better of all the close work. His left hand and jab soon set the blood always heat them when they lived in the East, and they should be able to win from them on a Western field. The Indians are a wonderful "robo" team, but having lost a game away from home this season, and their friends hope they will maintain their record on the trip to the coast. The Tecumsehs will return home via Chicago, where they will play an exhibition game on the American League track grounds with the Windy Side champions. They will also play matches at Calgary, Regina and Winnipeg. If the necessary guarantee is forthcoming.

The preliminaries were completed at 10:30 and five minutes later, the big man from Oklahoma entered the ring. His chief seconds were Gus Reilly and Joe Jeanette. Flynn followed two

minutes later, seconded by Albo Atoll and Danny Goodwin. The announced weight for Morris was 222 pounds and Flynn 175.

THIEVES ROB BALL PLAYERS

Minneapolis, Minn., Sept. 15.—Thieves last night robbed three Kansas City baseball players, one from the Milwaukee team, in their rooms at the West hotel, extras away with about \$400. Newton Randall, outfielder for Milwaukee, lost 225; his father, William Randall, lost \$10; William Goveil, pitcher for Kansas City, \$10; Jay Heston, outfielder for Kansas City, \$10; and Michael Howerman, first baseman, \$15.

PLAYER MADE DEAF

Chattanooga, Tenn., Sept. 15.—A final examination of the injuries received by Jimmy Johnston, the Birmingham right fielder, as the result of being struck by a pitched ball from Benton, was made today. Dr. Ellis stated that he would be permanently deaf in the left ear and suffer a slight facial paralysis. Jimmy is at his home and feels practically normal.

GOT TO PLAY

Omaha, Neb., Sept. 16.—President Carey and the directors of the Minn. league have decided that all teams will play out the schedule, reports to the contrary notwithstanding. The season will close on September 5.

Brooklyn fans are well pleased with the showing made by "Red" Smith, the new Superba third baseman.
